

- We want to simulate money withdrawal from our account using check
- For Tk.  $< 10,000$  only cashier's authorization is sufficient to withdraw money from account.
- For Tk. 10,000 to 10,00,000 authorization from both cashier and senior officer is needed
- For Tk  $> 10,00,000$  authorization from Senior officer and Manager is mandatory.
- Please implement this behaviour using appropriate software design pattern
